DIAS 2022

International Conference on Sustainability Analysis - ICSA

Sapienza University of Rome

Department of Social Sciences and Economics

14-15 July 2022

CALL FOR ABSTRACTS

The **SIS DIAS – Data, Indicators and Analysis for Sustainability** group of the Italian Statistical Society and the **Department of Social Sciences and Economics of Sapienza University of Rome** organize the First International Conference on Sustainability Analysis on *Theoretical perspectives and tools for policy-makers, ICSA 2022*.

The conference will be held in a mixed-mode on-site/web. Both theoretical and applied contributions about the sustainability of different aspects of reality and its analysis to support policy-makers are solicited and welcome.

Presentation of the conference

Sustainability is one of the most frequent concepts in institutional and academic debate in recent years. However, its meaning remains controversial and elusive. The term does not have a univocal definition in literature, although it is widespread and there are several research trends in this field. Consequently, different disciplines have contributed to the sustainability debate. Thus, there are many definitions currently in circulation, often divergent from one another. Moreover, the concept has changed over time, taking on new meanings related to the different phases of the international debate. We can consider sustainability as *a contested concept*.

This conference aims to analyze sustainability taking into account its multidisciplinary nature, which has undoubtedly influenced the difficulty of a univocally accepted definition. Contributions from different disciplines will be accepted and encouraged, from sociology to statistics, from law to economics, and so on.

Thematic areas (not limited to):

Circular economy	Health conditions and determinants
Climate change	Labour and occupational conditions
Cultural heritage	Migration and Demography in Europe
Digitalization	Poverty, Inequality and Social Exclusion
Education quality	Responsible production and consumption
Environmental analysis	Sustainable cities and communities
Energy policies	Sustainable Development
Food policies	Sustainable activities in the financial sector
Globalisation	Well-being and quality of life

Program Committee of ICSA

Submission of abstracts

Contributed abstracts are welcome. Scholars are invited to submit to the Scientific Committee (by using the email of the conference) an abstract in English, of no more than 300 words, including title, authors' name, company or institution they belong to, and email.

All selected abstracts will be published in the Book of Abstracts of the ICSA Conference 2022 - International Conference on Sustainability Analysis, with ISBN.

There will be a Special Issue in Social Indicators Research.

The official conference language will be English.

Conference Deadlines

- **April 30st, 2022: abstract submission (max 300 words).**
- **May 31th, 2022: early bird reduced accreditation fees (€80).**
- **From June 1st, 2022: regular accreditation fees (€100).**

The fee for participants under 30 years old and students is €50.

Accreditation fees are requested to at least one of the authors of each contribution and for any participant to the conference.

The payment of the fee must be made by transfer to the bank account of the Italian Statistical Society – SIS:

SIS, Società Italiana di Statistica

Blu Banca

IBAN: IT 83 O 03441 03201 CC01 90522425

SWIFT code: SVTUIT21

Bank transfer reference: ICSA2022 Registration fee – Last Name First Name

Awards are foreseen for the best posters on the theme of sustainability presented at the related session by participants under 30 years old and students.

Participants should send their poster by June 1, 2022 to the conference address.

The Conference Secretariat can be contacted also through the following email address:
